

CITIZEN DAY

Here are some photos from the community workday on October 8th, during which a dozen volunteers worked to clear the site of the Saint-Claude hermitage, remove the stones around the chapel, and place them on pallets near where they were found.

Two teams naturally formed around Cédric (from Les Jardins du Soleil, who came with his equipment) to clear the site, and around Juliette (a member of the association and a heritage specialist) for all the clearing and stacking of the stones on pallets (provided free of charge by Domaine du Merle in Sens).

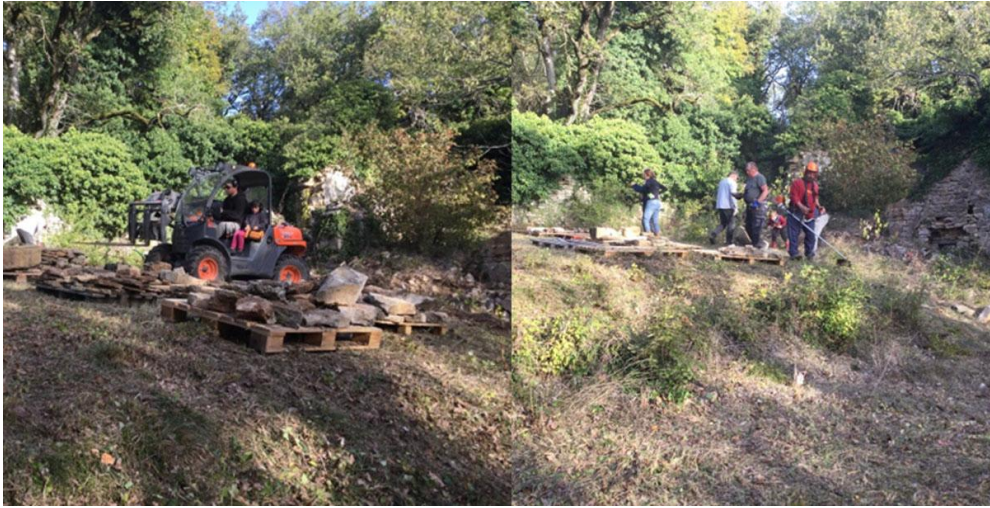

The sun was also part of the fun in this friendly, supportive atmosphere where everyone gave their all.

THANK YOU ALL

Even the children participated

Encouraged by Truffe

Little moment of rest

The result

Even the cross by the roadside has been cleared.
